**PUBLIC SAFETY & HYGIENE ARE OUR TOP PRIORITY**

NOVALOO is the leading public toilet designer/manufacturer for over 20 years with over 400 installed. NOVALOO prefabricated public toilets provide the highest level of hygiene for users, comply with AS 1428.1-2009 meeting the needs of people with disabilities and discourage vandalism and anti-social behaviour. Satisfies the requirements of the Premises Code 2012.

**BUILT WITH SUSTAINABILITY IN MIND**

NOVALOO toilets are built to reduce the impact on the environment using technology and award winning design to save water and electricity. Controlled toilet flush, time flow controlled sensor taps, touch free soap dispensers and hand dryers, making use of natural ventilation are standard features in our toilets. Toilet pans, taps, and other plumbing fixtures carry "Watermark" approval. Options include solar panels, sky lights, green roofs and green walls.

**FLEXIBILITY IN DESIGN**

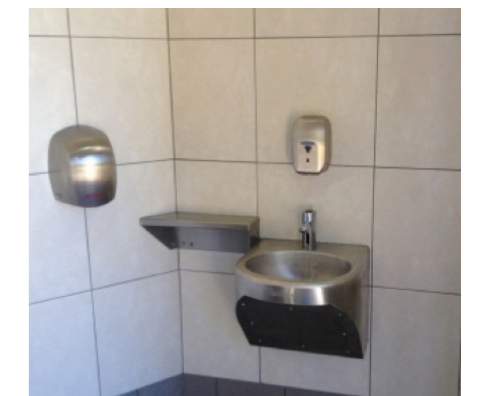

NOVALOO toilets are available as single, twin and triple units. The base structure based on a precast concrete floor/slab and a marine grade aluminium frame allows for variety of cladding materials and finishes, a variety of roof designs and internal finishes. Therefore NOVALOO toilets can be designed and purpose built to suit any streetscape.
