Erlau "Open Air" . . .
. . . affordable German
quality and engineering.

- All furniture is ISO 9001 certified and comes with a 10 year rust protection guarantee.
- The metal components resist even the hottest environments, never heating up more than a few degrees beyond normal body temperature.
- The hardened wires and precision steel tubes ensure stability and strength.
- The quick-drying, powder coated surface resists dirt and allows the removal of graffiti and stickers with the wipe of a biodegradable cleaner.
- The wire mesh seating elements are stylish and comfortable, yielding slightly to cushion people's weight and movements.

Olympia Nova

The diversity of the Olympia Nova seating elements makes it possible to curve the system into any shape that your design needs demand. Each individual seating element can be installed with or without back and arm rests to maximise its functionality.

Features

- Seats of wire mesh in steel tubular frame.
- Laser-cut steel end-plates.
- Available with or without backrests.
- Available with or without armrests.

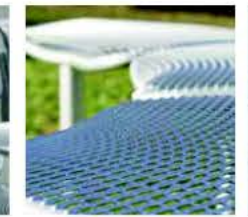

Applications

- Schools, universities and colleges.
- Public open space.
- Aged care facilities.

Fixing Options

1. Stationary: with extended support legs for embedding in concrete.
2. Stationary: with baseplates.
3. Movable.

Further information on the Olympia Nova can be found on our website at www.rud.com.au.
